Quantity	Description	Rate	Amount
	Replace off grid system at 16480 Logan Meadow Ln.		
	Replace existing Outback 3648 Inverters, Charge controller, 16 AGM batteries, 2 top of pole mounts with 8 205W modules each with the following:		
	1-Fortress Power Envy 12k All In One Inverter		
	3-Fortress Power eFlex Max 5.4 Batteries		
	1-Fortress Power Guardian battery monitor		
	2- Tamarack TTP-6 top of pole mounts		
	12- 450W solar modules, 6 per pole		
	1- Transfer Switch		
	Equipment and Material cost (incl tax and S/H to Solar Independence):	23,950.00	23,950.00
	Fortress Power Envy 12k, 3 Fortress eFlex Max 5.4kWh batteries, Fortress Guardian, 2 Tamarack TTP-6 pole mounts, 12 450W solar modules, transfer switch, Junction box, wires, polaris connectors, conduit		
	Troubleshoot 2 wire start, get wiring in equipment room to start generator	450.00	450.00
	Charge eFlex MAX batteries, update firmware in batteries and inverter connect batteries and inverter and verify operation	750.00	750.00
	Deliver inverter, batteries to equipment room, remove AGM batteries, battery box.	2,100.00	2,100.00
	Deliver TTP-6 pole mounts, remove Outback inverters, Charge controller, and associated wiring.		
	Install eFlex batteries and wire power and com cables. Mount inverter, transfer switch, junction box. Wire DC between batteries and inverter, wire AC between inverter, generator, service panel and transfer switch through junction box. Program inverter and verify operation. Re-route lighting and receptacle in equipment room. Re arrange wiring of old array to use solar power to keep the batteries charging	3,100.00	3,100.00
	Remove 205W modules and power fab top of pole mounting. Remove and replace conductors between array and equipment room (pull one string out and pull two strings back through the conduit. Mount new TTP-6 pole mounting, install 12 450W modules. Wire new array as 2 strings going to Inverter and program inverter	3,500.00	3,500.00
	Remove all old equipment from site for recycling	1,550.00	1,550.00
	Addition: add one more eFlex MAX 5.4 battery		
	Deliver and add another eFlex MAX 5.4 battery for a total of 4. Parallel with the other batteries and rewire the DC conductors and update to com wiring and Guardian battery monitor	2,670.00	2,670.00
